TAS Server Review / TCO TOC

Discovery / Assessment Report with TCO analysis.

Think you can benefit from server virtualisation but not sure how much?

TAS is experienced in performing virtualisation TCO and virtualisation scope reviews for companies of all sizes. Let us work with you by assisting you in determining the scope and return from virtualisation. We will deliver a document which can be used by you to base a business case. A sample table of contents for the deliverable report is presented below.

- 1. Introduction**
 - 1.1. Purpose of document
